RE: Manager's Breakfast Meeting on Snow & Ice Control

Dear Municipal Official:

The Maine Local Roads Center is pleased to announce a new series of Manager Breakfast Meetings on the subject of "SNOW & ICE CONTROL." Snow & Ice Control has become a hot topic over the past several years. Should we use more salt? Should we use more sand?

In this workshop we will discuss budgets, operations, storms, calcium & prewetting, chemicals/materials, sand salt, calcium, Ice B'Gone, and contracting out. Throughout this time, many questions have been raised by Maine municipalities. Knowing what is required could save your community time and money on this often-time misunderstood subject.

These meetings are targeted towards local policy decision makers, including Town Managers and Selectpersons. Meetings will be held in Augusta, Bangor, Lewiston, Presque Isle, Wells, and Westbrook from 7:30 AM to 11:00 AM (see attached sheet for more details). You are invited to enjoy a breakfast on us and attend one of these meetings at the location nearest you. The time out of the office will be time well spent.

If you would like, please bring along your Public Works Director or Foreman, **but don't send them in your place!** If you have any questions, or to reserve a seat, please feel free to contact Nancy at 1-800-498-9133 or email nancy.tyler@maine.gov. Thanks and hope to see you there.

Sincerely,

A handwritten signature in black ink that reads "Jerry Douglass". The signature is written in a cursive, flowing style.

Jerry Douglass, Program Manager
Maine Local Roads Center
